

Dear Sirs,

I listen to K-LOVE radio as I travel between home and work in the Sacramento, CA. area. This radio station gives me the music I enjoy without alot of talk. If you allow LPFM broadcasters to push K-LOVE off the local translator 99.3 that I listen to at my current jobsite, I will be unable to receive a clear signal. K-LOVE is supported by people like myself who don't want to listen to the trash talking DJ's that are on the other commerical stations. It would greatly effect me if you allowed K-LOVE to be forced to give up their translator.

K-LOVE lets me know about local community events, which I can not find on other local stations. They also advise me of positive news items, which other stations don't carry.

Sincerely,

Raymond C Mayer
